

Felix Okoth

Certified Full-Stack Web Developer

Email: felixokoth078@gmail.com | **LinkedIn:** www.linkedin.com/in/felix-okoth-216951301 | **GitHub:** <https://github.com/Xhechar>

I am a highly skilled and certified Full-Stack Web Developer with extensive experience in building robust, scalable applications. Proficient in both frontend (Angular), (React) and backend (Node.js, .NET and Express) technologies, with a strong emphasis on creating seamless user experiences and reliable APIs. Certified in QA/QE with a deep understanding of testing methodologies, including Jest, Cypress, and Jasmine. Experienced in deployment using Docker and Azure, ensuring smooth delivery and scaling of applications.

Technical Skills

- **Frontend:** Angular, React, HTML, CSS, JavaScript, TypeScript
- **Backend:** Node.js, .NET, Express
- **Databases:** SQL Server, Prisma ORM, MySQL, PostgreSQL, Entity Framework Core
- **Testing:** Jest, Cypress, Jasmine
- **Deployment & DevOps:** Docker, Azure, Heroku
- **Version Control:** Git, GitHub, GitLab

Professional Experience

Full-Stack Developer

Teach2Give | Physical | May2024 – Present

- Developed and maintained scalable web applications using Angular and Node.js, ensuring high performance and responsiveness across devices.
- Designed and implemented RESTful APIs with Node.js and .NET, enhancing the functionality of internal tools and customer-facing applications.
- Led the creation of automated tests using Jest, Cypress, and Jasmine, reducing manual testing time by a great percentage and improving software reliability.
- Collaborated with DevOps teams to deploy applications using Docker containers, streamlining the deployment process.
- Utilized Azure for cloud hosting and deployment, optimizing the infrastructure for better scalability and availability.

QA/QE Engineer

Teach2Give | Chuka, Kenya | May2024 – August 2024 Attachment

- Spearheaded end-to-end testing for a suite of web applications, ensuring that the user experience was flawless and feature implementations were bug-free.
- Implemented test automation frameworks with Jest and Cypress, improving testing efficiency and coverage.
- Collaborated with developers to troubleshoot, debug, and optimize code based on test results.

Education & Certifications

- **Certified Full-Stack Web Developer** – Teach2Give (2024)
- **Certified QA/QE Engineer** – Teach2Give (2024)
- **Bachelor of Science in Computer Science (Near completion)** – Chuka University (2024)

Projects

- **Furniture Shop E-commerce Website:** Developed a fully responsive e-commerce platform with Angular for frontend and Node.js for backend APIs, featuring secure user authentication and dynamic product displays.
- **Travel Booking Application:** Built a web-based booking platform with Angular, implementing complex API integrations for flight, hotel, and car rental services.
- **Online Freelancing Application:** Build a well integrated freelancing platform where job managers could easily find people to employ for their work businesses, ensure people in search for jobs have a platform to easily connect with employers benefiting the business owners, managers and users.

Additional Skills & Interests

- Passionate about writing clean, maintainable code and following best practices.
- Enthusiast of cloud computing and containerization technologies (Docker, Azure).
- Regularly contributing to open-source projects and staying up-to-date with the latest web development trends.
- Adapt to working in collaborative, cross-functional teams to deliver high-quality software on time.
